Please note: This document is for planning purposes only. Official confirmation of course completion and grades may be obtained from Student Services.

Semester

Students are able to use this section to record the semester and year course was completed e.g., Fall 2022.

Registration

Registration information for an upcoming semester is posted on the [CNA ECE DL webpages](#) under STUDENTS/CURRENT/COURSE REGISTRATION/WHEN DO I REGISTER FOR COURSES.

Pre-requisites

When registering for courses, please take note of the prerequisites. These are courses you must have completed before you can register for or PLAR that course.

Prior Learning Assessment and Recognition (PLAR)

Learners who have prior experience in a particular area or topic may be eligible to apply for PLAR. Information on the reasons why a learner is applying must be provided on the PLAR application form. Applications for PLAR may be submitted when registering each term or may be submitted as a Comprehensive PLAR (in the term the course is not offered). Deadline for PLAR applications are posted on the [CNA ECE DL webpages](#) under STUDENTS/FUTURE/PRIOR LEARNING/CREDIT FOR PRIOR LEARNING.

Credit Completion

As per College policy, the maximum number of credits that can be awarded through Exemption and/or PLAR is 75% of the number required to complete the ECE Diploma Program.

Field Placements

- Students in the ECE Online Diploma program are required to complete four field placements: FW1600 (5 weeks), FW1601 (5 weeks), FW2600 (4 weeks) and FW2601 (4 weeks). Provincial program standards require that learners must complete a majority of their placements in a regulated child care centre. A minimum of 500 hours for the Diploma must be completed in a regulated child care centre, while the remaining hours may be in a regulated family child care home, child care centre, a family child care agency, a kindergarten classroom, or a family resource centre. For new students accepted into College of the North Atlantic's Early Childhood Education (2nd year) of the Diploma (Online) program, FW1600 and FW1601 are already completed.
- For those online students currently working in regulated child care for less than 12 consecutive months, from the start of FW2600, a minimum of 1 week must be completed at a College of the North Atlantic (CNA) demonstration child care centre. Written confirmation of work experience will be required. An additional week at a CNA demonstration child care centre (for a total of 2 weeks out of the required 8 weeks) will be mandatory for students not working in regulated child care.
- Applicable students will be assigned a CNA demonstration child care centre based on geographical location. Our centres are located in St. John's, Corner Brook and Happy Valley - Goose Bay. As well, any weeks already completed at a CNA demonstration child care centre will be credited towards this graduation requirement (as applicable).
- Students are to complete an ECE Field Placement Intent to Register form when eligible to register for FW2600 or FW2601. PLEASE NOTE: Submitting an ECE Field Placement Intent to Register form does not guarantee a placement for the current semester. Once the form is submitted, students will be contacted regarding status of their field placement request.
- Prior to the start of a field placement, students must submit to Student Services, a current copy of at least an emergency level (one day) diploma/certificate in first aid and CPR dealing with children. A list of approved first aid training providers can be found on the [Workplace NL website](#).

EE2470 Infant Development & Care

This course has components that require working with infants. If your workplace does not provide infant care, please contact course Instructor to discuss.
